

CERTIFICATE OF HEALTH AND ORIGIN FOR IMPORT OF DEEP-FROZEN DOG SEMEN TO ICELAND

PART 1 - IDENTIFICATION OF IMPORTER*		
Importer		Personal identification number (Icelanders)
Address		City
Postal code	Country	Tel.no.
e-mail address		

*Import permit holder

PART 2 - IDENTIFICATION OF DONOR DOG		
Country of origin*	Country of export**	Import permit no.
ID-no (microchip no)	Breed	
Date of birth (dd/mm/yy)	Name	

*For dog semen considered imported from a rabies free country, the donor dog must have remained in that country for at least the 6 months prior to semen collection

**If other than country of origin

PART 3 - VACCINATIONS		
I, THE UNDERSIGNED LICENSED VETERINARIAN, CONFIRM THAT THE DOG IDENTIFIED IN PART 2, BASED UPON ORIGINAL VACCINATION DOCUMENTS AND LABORATORY CERTIFICATES, FULFILLS THE FOLLOWING REQUIREMENTS		
a) RABIES		
The dog has been vaccinated against rabies with an approved, killed vaccine, within the last 365 days prior to semen collection. At the time of vaccination the dog was at least 12 weeks old.		
Rabies vaccination record	First rabies vaccination (dd/mm/yy)	Vaccine name Valid until (dd/mm/yy)
	Revaccination (as applicable) (dd/mm/yy)	Vaccine name Valid until (dd/mm/yy)
	Revaccination (as applicable) (dd/mm/yy)	Vaccine name Valid until (dd/mm/yy)
	Revaccination (as applicable) (dd/mm/yy)	Vaccine name Valid until (dd/mm/yy)
<i>Semen for importation may be collected 120 days after the date of the first rabies vaccination of the donor dog. In case of revaccination, semen for importation may be collected 30 days after the last rabies revaccination.</i>		
b) RABIES ANTIBODY TITRE TEST		
A blood sample taken no earlier than 30 days after the first rabies vaccination, showed that the rabies neutralizing antibody titre was at least 0.5 IU/ml. If the results were not satisfactory (below 0.5 IU/ml), any subsequent rabies vaccination would be classed as the first vaccination and semen collection for importation to Iceland would not be authorised until at least 120 days had passed after this subsequent vaccination followed by a rabies neutralizing antibody titre test with satisfactory results.		
A LABORATORY CERTIFICATE OF RABIES ANTIBODY TITRE TEST RESULTS MUST BE ENCLOSED WITH THIS CERTIFICATE		
Date of blood sampling (dd/mm/yy)	Name of laboratory	
The rabies antibody titre test does not have to be renewed on an animal which following that test with satisfactory results, has been revaccinated against rabies within the period of validity of a previous vaccination.		
<i>(Part 3, a) and b) - Rabies Vaccination and Antibody Titre Test - does not apply to dogs originating from Australia, Faroe Islands, Finland, Hawaii, Ireland, Great Britain, Japan, New Zealand, Norway (Svalbard not included) or Sweden)</i>		

Importer	Name of donor dog
----------	-------------------

PART 3 - VACCINATIONS (continued)

I, THE UNDERSIGNED LICENSED VETERINARIAN, CONFIRM THAT THE DOG IDENTIFIED IN PART 2, BASED UPON ORIGINAL VACCINATION DOCUMENTS AND LABORATORY CERTIFICATES, FULFILLS THE FOLLOWING REQUIREMENTS

c) LEPTOSPIROSIS

The dog has been fully vaccinated against leptospirosis (the most common *Leptospira* species affecting dogs) with an approved vaccine no more than 180 days and no less than 30 days prior to semen collection.

Date of vaccination (dd/mm/yy)	Vaccine name
--------------------------------	--------------

d) CANINE DISTEMPER

The dog has been fully vaccinated against canine distemper with an approved vaccine no more than 730 days and no less than 30 days prior to semen collection.

Date of vaccination (dd/mm/yy)	Vaccine name
--------------------------------	--------------

e) INFECTIOUS CANINE HEPATITIS (HCC)

The dog has been fully vaccinated against infectious canine hepatitis with an approved vaccine no more than 365 days and no less than 30 days prior to semen collection.

Date of vaccination (dd/mm/yy)	Vaccine name
--------------------------------	--------------

f) CANINE PARVOVIRUS

The dog has been fully vaccinated against infectious canine parvovirus with an approved vaccine no more than 365 days and no less than 30 days prior to semen collection.

Date of vaccination (dd/mm/yy)	Vaccine name
--------------------------------	--------------

PART 4 - LABORATORY TEST WITHIN 30 DAYS PRIOR TO SEMEN COLLECTION

I, THE UNDERSIGNED LICENSED VETERINARIAN, CONFIRM THAT THE DOG IDENTIFIED IN PART 2, BASED UPON ORIGINAL LABORATORY CERTIFICATES, FULFILLS THE FOLLOWING REQUIREMENTS

a) BRUCELLOSIS

The dog has been tested serologically for brucellosis (*Brucella canis*) with a negative result. The blood sample was drawn within the last 30 days prior to semen collection.

Date of blood sampling	Name of laboratory
------------------------	--------------------

PART 5 - HEALTH EXAMINATION AT TIME OF SEMEN COLLECTION

I, THE UNDERSIGNED LICENSED VETERINARIAN, HAVE TODAY EXAMINED THE DOG IDENTIFIED IN PART 2 AND COLLECTED HIS SEMEN. I CONFIRM THAT THE DOG DOES NOT SHOW ANY SIGNS OF INFECTIOUS DISEASE

PART 6 - SIGNATURE OF VETERINARIAN

Name (in capital letters)	Place	Date
Veterinary hospital / Tel.no.	Signature and stamp	

Importer	Name of donor dog
----------	-------------------

PART 7 - DECLARATION BY OWNER / IMPORTER

I, THE UNDERSIGNED OWNER OF THE DOG IDENTIFIED IN PART 2, DECLARE THAT THE DOG HAS NOT BEEN USED FOR NATURAL PAIRING/MATING FROM THE TIME WHEN THE BLOOD SAMPLE WAS DRAWN FOR TESTING OF BRUCELLA CANIS UNTIL THE SEMEN WAS COLLECTED.

Name of owner (in printed letters)			
Address			City
Postal code	Country	Tel.no.	
Place	Date	Signature	

PART 8 - ESTIMATED DATE OF ARRIVAL OF DOG SEMEN

The dog semen shall be stored in a specialized sealed container marked with the name, address and phone number of the importer and the donor dog's microchip number. The container shall be shipped preferably by express package service and sent to **The Icelandic Food and Veterinary Authority, Office of Import and Export, Stórhöfði 23, 110 Reykjavík, Iceland.**
 Package description: dog semen, customs code 0511.9909

Estimated date of arrival in Iceland	Flight number, if applicable
--------------------------------------	------------------------------

PARTS 9-11 ARE TO BE COMPLETED BY THE ICELANDIC FOOD AND VETERINARY AUTHORITY

PART 9 - PRE-APPROVAL OF CERTIFICATE BY THE ICELANDIC FOOD AND VETERINARY AUTHORITY

Date of reception of certificate	Signature and stamp
Place and date of signature	

PART 10 - DOCUMENT AND IDENTITY CHECK BY THE ICELANDIC FOOD AND VETERINARY AUTHORITY UPON ARRIVAL

Import permit and originals of all required certificates for the dog semen are submitted. Markings on dog semen container/straws correspond with information in part 2 of this certificate.	
Place & date	Signature and stamp

PART 11 - IMPORTERS' SIGNATURE UPON RECEIPT OF DOG SEMEN

Place & date	Signature of importer
--------------	-----------------------

This certificate is according to Regulation no. 935/2004 on the semen collection of Pets (Companion Animals) and Dog Semen
