

This application is in accordance with Regulation no. 200/2020 on the Importation of Dogs and Cats. Information on importation (health conditions and quarantine) are on the MAST website and it is recommended to read the instructions before applying for an import permit. Cats can only be imported to Iceland from approved exporting countries¹⁾.

Applicant / Importer

Name	Kennitala (if available)
E-mail	Tel.no.
Address	
Town	Country

Cat

Cat breed	Country of export
Date of birth	Name of cat

 Signature of applicant

A scanned copy of the signed application must be sent by e-mail to petimport@mast.is
Applicants with Icelandic ssn (kennitala) should apply on the [MAST portal](#).

1) Approved exporting countries

Approved exporting countries are divided into two categories with regard to rabies; category 1 countries are rabies-free countries. Category 2 countries are countries where rabies is well controlled. Refer to the [MAST website](#) for a list of the approved exporting countries.

2) Microchip must be ISO compliant
