

This application is in accordance with [Regulation no. 200/2020](#) on the Importation of Dogs and Cats. Information on importation (health conditions and quarantine) are on the [MAST website](#) and it is recommended to read the instructions before applying for an import permit. Dogs and cats may only be imported to Iceland from [approved exporting countries](#).

However MAST may authorize the import of a dog or a cat from a non-approved country of export, when the following conditions are met:

- The pet has been owned and cared for by the importer in the country of export for at least six months prior to importation, and
- the owner/importer is a resident in the country of export and is moving to Iceland and bringing the pet with him/her.
- The ownership of the pet and the residency in the country of export must be confirmed with valid documents submitted to MAST along with this application form.
- A dog/cat that is imported to Iceland on these grounds must meet the health conditions according to country category 2.

Applicant / Importer

Name	Kennitala (if available)
E-mail	
Address	
Town	Country

Dog Cat

Dog/cat breed ¹⁾	Country of export
Date of birth	Name of dog/cat
Microchip number ²⁾	

By submitting this application the applicant confirms to comply in every respect with the conditions of the importation of a dog/cat according to regulation no. 200/2020. Dogs/cats that do not fully comply with import conditions will not be approved for importation and exported or euthanised at the expense of the importer.
