

CERTIFICATE OF HEALTH AND ORIGIN FOR IMPORT OF PIGEONS TO ICELAND

PART 1 - IDENTIFICATION OF OWNER / IMPORTER			
Owner/importer		Personal identification number (Icelanders)	
Address		City	
Postal code	Country	Tel.no.	
e-mail address			

PART 2 - IDENTIFICATION AND ORIGIN OF THE PIGEONS	
Country of export	Quantity of pigeons
Species and identification of the pigeons (Attach a list if needed)	

PART 3 - LABORATORY TESTS WITHIN 21 DAYS PRIOR TO IMPORTATION			
I, THE UNDERSIGNED OFFICIAL/AUTHORISED VETERINARIAN, CONFIRM THAT THE PIGEONS IDENTIFIED IN PART 2, BASED UPON ORIGINAL LABORATORY CERTIFICATES (WHICH ACCOMPANY THIS CERTIFICATE) FULFILL THE FOLLOWING REQUIREMENTS			
a) Salmonella spp.			
Fecal samples from the pigeons identified in part 2 (individual or representative group samples according to requirements of The Icelandic Food and Veterinary Authority) have been tested for <i>Salmonella</i> spp. with a negative result. The samples were taken no more than 21 days prior to importation.			
Laboratory certificate for the testing of Salmonella spp. must be enclosed with this certificate.			
Date of sampling	No. of samples	Name of laboratory	Results:
b) Newcastle disease (aPMV-1)			
Blood samples from the pigeons identified in part 2 (individual or representative group samples according to requirements of The Icelandic Food and Veterinary Authority) have been tested for antibodies against Newcastle disease with a negative result. The samples were taken within the last 21 days prior to importation.			
Laboratory certificate for the testing of Newcastle disease (aPMV-1) must be enclosed with this certificate.			
Date of sampling	No. of samples	Name of laboratory	Results:
c) Avian influenza (H5 and H7)			
Blood samples from the pigeons identified in part 2 (individual or representative group samples according to requirements of The Icelandic Food and Veterinary Authority) have been tested for antibodies against Avian influenza H5 and H7 with a negative result. The samples were taken no more than 21 days prior to importation.			
Laboratory certificate for the testing of Avian influenza (H5, H7) must be enclosed with this certificate.			
Date of sampling	No. of samples	Name of laboratory	Results:
d) Pigeon Avian Paramyxovirus (paPMV-1)			
Blood samples from the pigeons identified in part 2 (individual samples) have been tested for antibodies against Pigeon Avian Paramyxovirus (paPMV-1) with a negative result. The samples were taken no more than 21 days prior to importation.			
Laboratory certificate for the testing of Pigeon Avian Paramyxovirus (paPMV-1) must be enclosed with this certificate.			
Date of sampling	No. of samples	Name of laboratory	Results:

Owner/importer

PART 4 - HEALTH EXAMINATION - NO MORE THAN 10 DAYS BEFORE IMPORTATION

I, THE UNDERSIGNED OFFICIAL VETERINARIAN OR VETERINARIAN AUTHORISED BY THE COMPETENT AUTHORITY, HAVE TODAY EXAMINED THE PIGEONS IDENTIFIED IN PART 2 OF THIS CERTIFICATE AND CONFIRM THE FOLLOWING:

- The pigeons do not show any signs of contagious disease, including parasitic infestations.
- The owner has assured me that the pigeons are intended for import to Iceland within a maximum of 10 days

PART 5 - ESTIMATED DATE AND TIME OF ARRIVAL OF THE PIGEONS TO ICELAND

Estimated date and time of arrival in Iceland	Flight number
---	---------------

PART 6 - SIGNATURE OF AUTHORISED VETERINARIAN

Name (in capital letters)	Qualification and title	
Veterinary clinic (name, address, tel.no., e-mail address)	Place	Date
	Signature and stamp	

PART 7 IS TO BE COMPLETED BY THE ICELANDIC FOOD AND VETERINARY AUTHORITY (MAST)

PART 7 - PRE-APPROVAL BY THE ICELANDIC FOOD AND VETERINARY AUTHORITY (MAST)

- Home quarantine facilities have been approved by MAST
- The certificate of health and origin for import of the pigeons identified in part 2 is approved by MAST
